Abstracts

Print on Demand software allows e-commerce businesses to create customized products that are automatically manufactured when a customer purchases an item such as a shirt, mug, or tote bag. Each Print on Demand product is automatically fulfilled and shipped by the provider, which will saves the seller time and money by simplifying the process of selling customized merchandise. Print on Demand software can integrate with e-commerce platforms to provide a front-end marketplace for vendors to intake customer orders.

Print-on-demand (POD) is a type of e-commerce where customizable products are only produced and shipped when an order has been placed.

Print-on-demand (or POD) is also an order fulfillment method where items are printed as soon as an order is made. With POD, you can create customized designs for a variety of products and sell them under your brand.
