Abstracts

A waste container is a container for temporarily storing waste, and is usually made out of metal or plastic. Public areas, such as parks, often have litter bins placed to improve the social environment by encouraging people not to litter. Such bins in outdoor locations or other busy public areas are usually mounted to the ground or wall to discourage theft, and reduce vandalism, and to improve their appearance are sometimes deliberately artistic or cute. In dense urban areas, trash is stored underground below the receptacle.[4] Some trash cans have plastic bags to help contain liquids.
