Abstracts

Pure beer refers to the original beer that has not been sterilized or filtered, and the draft beer stock solution that retains the fresh yeast. Because it contains active yeast, the wine will show a certain degree of turbidity, but the foam of the wine body is very high. Rich, mellow in taste, fresh in taste, very strong in aroma and unique in flavor, it can be described as a super liquid bread in the beer family. For example, some white beers with excellent reputation are basically this kind of puree beer.
