Abstracts

Figure, according to the literal meaning of the puppet, the meaning of humanoid, that is, the puppet from the anime works, and PVC refers to the material of PF-PVC. A garage kit or resin kit is an assembly scale model kit most commonly cast in polyurethane resin. They are often model figures portraying humans or other living creatures. In Japan, kits often depict anime characters, and in the United States depictions of movie monsters are common. However, kits are produced depicting a wide range of subjects, from characters from horror, science fiction, fantasy films, television and comic books to nudes and pin-up girls to dinosaurs to original works of art, as well as upgrade and conversion kits for existing models and airsoft guns. Because PF is cheaper than GK (Garage Kits), and does not need to do it yourself, its market share is gradually surpassing GK.
