Abstracts

Ridesharing companies provide taxi-like services by connecting passengers to drivers via a smart phone app. Rides can be arranged in advance or on short notice.

The official name for a ride-sharing business is a Transportation Network Company (TNC). TNCs contract with drivers who use their personal vehicles to transport passengers. Therefore, many of the drivers who work for TNCs do not have a livery driver's license, and their cars are neither registered nor insured as commercial vehicles. These drivers are distinct from limousine or taxi drivers, who use a commercial vehicle and already have commercial insurance coverage.
