Abstracts

Rigid PVC Window and Door is window and door with UPVC frames. High performance UPVC windows and doors can reduce energy loss, and use energy efficiently in commercial and residential structures.

UPVC is based on polyvinyl chloride (PVC), one of the most versatile polymers found in the century. PVC today finds application in almost all facet of our life, from daily use to highly sophisticated lifesaving applications. UPVC is prepared with a special formulation in which modifiers and stabilizers are added to polyvinyl chloride (PVC) making it rigid and suitable for use as window frames.

UPVC (where 'U' stands for unplasticized) is one of the most preferred window framing material across the world. The material comes in a range of color, is low maintenance and offers benefits which no material so far has matched.
