Abstracts

We defines the SAP S/4HANA Application Services as: assessment, implementation and applications management services. Assessment services are discrete, project based services to assess the impact of either a new SAP S/4HANA implementation or a migration from a legacy platform(s) to SAP S/4HANA. These services include consulting and potentially Proof of Concept, and covers the analysis of all SAP S/4HANA products, applications, databases, analytics, middleware, mobile and other technologies. Implementation services are discrete, project-based implementations of SAP S/4HANA applications without ongoing management responsibilities. These services include consulting, development and integration services, and covers all SAP S/4HANA products, applications, databases, analytics, middleware, mobile and other technologies. Management services are ongoing services focused on SAP S/4HANA applications that are provided as part of a multiyear-based agreement and managed against defined quality metrics.
