Abstracts

Scratch Remover is a car wax that repairs small scratches on the paint surface. The nature of Scratch Remover is equivalent to abrasives. The working principle is the same as sandpaper, which is the physical effect on the surface of the paint. Scratch Remover can quickly remove the fine scratches on the surface of the paint, effectively control the oxidative phenomenon such as whitening and fading of the paint, and at the same time, it can polish and maintain the paint, which makes the paint gloss more ideal.
