Abstracts

Assisted living is known as extra-care housing or retirement living which allows residents over the age of 55 or 60 to live independently. They are offered a self-contained flat or bungalow and have staff that are available to them 24 hours a day to provide personal care.

Independent senior living communities are housing designed for seniors 55 and older.

Independent senior living communities commonly provide apartments, but some also offer cottages, condominiums, and single-family homes. Residents include seniors who do not require assistance with daily activities or 24/7 skilled nursing, but may benefit from convenient services, senior-friendly surroundings, and increased social opportunities that independent senior living communities offer.
