## Abstracts

Treadmills are common sports equipment in fitness studios. They are used for running or walking on the spot. The main parts are a conveyor belt and a set of electric motors. Some high-end models can also adjust the slope, with heartbeat monitoring function and exercise mode setting. And a USB port for users to store exercise settings, running records or charging mobile devices. Some treadmills have their own LCD screens that receive TV channels, or wall-mounted TVs that users can watch during monotonous training sessions.
