Abstracts

These are usually waterproof or water resistant, and insulated, with convenient pockets and other snow-specific features. A waterproof/breathable rain jacket over your fleece or wool top would be sufficient as well, though its slickness might lengthen any slides you make after a fall. The main difference between a ski jacket and a snowboard jacket is the fit. Snowboard jackets are a lot looser than ski jackets and tend to be longer in length. The extra length helps keep you warmer when you are sitting in the snow strapping your board on.
