Abstracts

Sourbread is also known as bread starter, levain, masa madre, lievitoito naturale or Sauerteig, which gives baked products their structure and flavor. Microorganisms in yeast use starches and minerals found in flour to ferment and increase the volume of bread, while organic molecules produce flavor. And the sour dough provides a natural form of fermentation that enhances the flavor and nutritional value of the baked goods. Folic acid and other B vitamins yeast bread is made from fruit, raisins or beer that has been naturally fermented to give it a natural sweetness. Sourdough bread USES almost no oil and has less sugar and more energy than regular bread.
