Abstracts

Sugar-free yogurt is a kind of healthy yoghurt without added sucrose. It is different from ordinary yoghurt. Firstly, sucrose and monosaccharide are not added to the raw material, but the functional sweetener sugar alcohol is used to avoid the rise of blood sugar level. Secondly, soluble dietary fiber inulin was added. Soluble fiber has a feeling of satiety, can regulate blood sugar levels, reduce the body's cholesterol content, and enhance the intestinal function of the human body.
