Abstracts

Trade promotion management (TPM) and trade promotion optimization (TPO) are the processes and technologies that consumer goods manufacturers leverage to plan, manage and execute the activities that require collaborative promotional activity from their retail partners. Collectively, we refer to them as 'trade promotion execution' (TPx). The solutions in the market are currently offered either separately or as part of a combined package, and to date, have largely been used to deliver promotional activity in brick-and-mortar locations.
