## Abstracts

U Profiled Glass is a U Profiled Cast Glass. Cast in sheet form whilst still molten, it is rolled and the side wings are formed to create a U shaped profile. It is commonly referred to as 'channel glass' and each individual length 'a blade'.

It can be used internally and externally and is a very popular glazing solution selected by architects because of its unique, aesthetic characteristics. U-Shaped Glass can be used in straight and curved applications and the channels can be fixed horizontally or vertically. The blades can be installed single or double glazed.
