Abstracts

The aircraft seating market is very dynamic wherein new technologies have evolved over the years to reduce the overall weight of an aircraft seat. Lighter seats lead to less fuel consumption by an aircraft, ultimately leading to improved operating efficiency for an airline.

Germany dominates the European market for commercial aircraft seating and is expected to remain a major market in the coming years. It is expected to hold a market share of 29.2% by the end of 2014.

An in-depth market share analysis, in terms of revenue, of the top companies is also included in the report. These numbers are arrived at based on key facts, annual financial information from SEC filings, annual reports, and interviews with industry experts, key opinion leaders such as CEOs, directors, and marketing executives. A detailed market share analysis of the major players in the European aircraft seating market has been covered in this report.

The major companies in this market include Sogerma S.A. (France), B/E Aerospace (U.S.), Zodiac Aerospace (France), Recaro Aircraft Seating GmbH Co. & KG (Germany), Acro Aircraft Seating Ltd. (U.K.), Thompson Aero Seating (U.K.), Aviointeriors S.P.A (Italy), ZimFlugsitz GmbH (Germany), and Geven S.P.A (Italy).
