Abstracts

The European cataract surgery devices market is expected to grow at a CAGR of 5.9%. This market is segmented based on product type (intraocular lenses, phacoemulsification devices, and ophthalmic viscoelastic devices) and end user (hospitals, private eye clinics, and others). Germany, holds the maximum share of the market, is expected to grow at a CAGR of 6.8%. France holds the second-largest market share.

The market has shown significant growth, despite restraints such as economic slowdown and market saturation. The opportunities in this market include product approvals and collaborations between players to increase the technical efficiency of procedural results.

The report shares a competitive view of various companies in the markets in terms of the geographies they operate in, revenue bifurcation, and market shares. The report also provides brief insights about the scenario in the market.

The key market players listed in this report include Alcon, Inc., Carl Zeiss, Nidek Co. Ltd., and Topcon Corporation.
