Abstracts

The European Nitrogenous Fertilizers market is estimated to grow at a CAGR of 2.4% from 2014 to 2019. Europe is a significant market for nitrogenous fertilizers products because it is the fastest growing exporter of wheat and other grains. Different governments in European countries always supported to increase the production by promoting use of fertilizers and pesticides.

The report consists of in-depth study of European nitrogenous fertilizers market and its application in grain and oilseeds, fruits & vegetables, and other crops. In European countries, nitrogenous fertilizers are majorly used in grains and oilseed to meet domestic consumption and export demand. The grain and oilseed segment has a share of 61.37% of the total European nitrogenous fertilizers market.

France has a 20.54% of market share of the total European nitrogenous fertilizers market. The major nitrogenous fertilizers producers have been targeting Germany and U.K. market, which is significantly a bigger market after France. Spain has estimated to grow with a higher CAGR than its European counterparts.

Every small and large player wants to acquire a major share of the European nitrogenous fertilizers market in the world. This highly fragmented European nitrogenous fertilizers market's major share is captured by Yara International (Norway). The other companies that are present in the European market and expecting to expand their operations are Eurochem (Russia), Bunge (U.S.), and Agrium Inc. (Canada)

Reasons to Buy the Report:

From an insight perspective, this research report has focused on various levels of analysis—industry analysis, market share analysis of top players, company profiles, which together comprise and discuss the basic views on the competitive landscape, emerging- and high-growth segments of the European nitrogenous fertilizers market, high-growth regions, and countries and their respective regulatory policies, government initiatives, drivers, restraints, and opportunities.

The report will enrich both established firms as well as new entrants/smaller firms to gauge the pulse of the market, which in turn will help the firms in garnering a greater market share. Firms purchasing the report could use any one or combination of the below mentioned five strategies (market penetration, product development/innovation, market development, market diversification, and competitive assessment) for strengthening their market share.

The report provides insights on the following pointers:

Market Penetration: Comprehensive information on nitrogenous fertilizers offered by the top 10 players in the European nitrogenous fertilizers market.

Product Development/Innovation: Detailed insights on upcoming technologies, research and development activities, and new product launches in the European nitrogenous fertilizers market.

Market Development: Comprehensive information about lucrative emerging markets. The report analyzes the markets for various nitrogenous fertilizers across Europe.

Market Diversification: Exhaustive information about new products, untapped geographies, recent developments, and investments in the European nitrogenous fertilizers market.

Competitive Assessment: In-depth assessment of market shares, strategies, products, and manufacturing capabilities of leading players in the European nitrogenous fertilizers market.
