Abstracts

The global chlorine market is estimated to register a CAGR of 4.9% between 2014 and 2019. Asia-Pacific holds the largest share of the global chlorine market, while North America is estimated to register the highest CAGR of 4.7% during the forecast period.

In this report, the global chlorine market has been classified on the basis of application and geography. The application segment is divided into ethylene dichloride (EDC)/polyvinyl chloride (PVC) production, chlorinated intermediaries production, isocyanates, organic & inorganic chemicals, pulp & paper, and water treatment. Based on geography, the global chlorine market is segmented into North America, Europe, Asia-Pacific, and Rest of the World.

Increasing adoption of chlorine in developing countries, such as China and Japan, is fuelling the growth of the chlorine market in the Asia-Pacific region. The growth in demand will be driven by vinyls chain (EDC/PVC).

The global chlorine market is a competitive market with a number of market players. As of 2014, the global chlorine market was dominated by The Dow Chemical Company, followed by Oxy and Olin. Partnerships, agreements, and joint ventures are the key strategies adopted by most of the market players to achieve growth in the chlorine market.
