## **Abstracts**

The global recloser market was valued at \$790.8 million in 2014 and is projected to grow at a CAGR of 3.9% from 2014 to 2019 to reach \$957.5 million by 2019.

Geographically, the report is further divided into North America, Europe, Asia-Pacific, and Rest of the World. North America holds a larger share-72.3%-of the market due to greater demand for advanced triple-single reclosers in this region. North America is followed by Asia-Pacific with a share of 12.8%. Most power distribution networks in developing regions such as Asia-Pacific are single phase, as the need for interrupted power supply is more for industrial applications. Automatic reclosing is a new concept in these regions, which is why the recloser market in this region is largely untapped. There is huge growth potential for reclosers in this market.

The global recloser market holds high potential for growth in future, due to a number of forces that favor this market. The major factors that drive this market include no manual interventions to restore power, reliability of the equipment, customer outage cost reduction, automation/ data collection, growth of the power distribution network, and customers' motivation to install reclosers and advanced systems.

In this report, the global recloser market is segmented on the basis of phase and controls. The segmentation by phase includes single phase, three phase, and triple-single recloser. In 2014, single phase contributed to 83.4% of the total reclosers market by phase.

The report has profiled the leading players of this market along with their recent

developments. New contracts & agreements, new product launches, new technologies, product developments, acquisitions, and other developments have been the key strategies adopted by the players to expand their reclosers businesses in different regions. The top players considered in this report are Cooper Industries (Ireland), ABB Ltd (Switzerland), G&W Electric (U.S.), Hubbell Inc. (U.S.), Schneider Electric (France), and Tavrada Electric (Russia).
