Abstracts

Well intervention services are required throughout the lifespan of an oil & gas well. Worldwide increase in E&P activities and new areas of unconventional resources are the main drivers for the growth of the well intervention services market. However, issues associated with the environment, and increased seismic activities have slowed down the growth of this market.

The growth in the well intervention market is directly proportional to the stimulation activities of the existing mature oilfields. On the basis of various factors such as, geological condition, type of reservoir, and other factors different types of well intervention services are required to assist the production activities.

This report estimates the well intervention services market in terms of value in \$ million. This has been broken down into component and further split into countries. We have used various secondary sources such as encyclopedia, directories, and databases to identify and collect information useful for this extensive commercial study of the Middle East well intervention services market.
