Abstracts

Nerve gas auto injector is important self-aid equipment which helps the soldiers to protect themselves from the effects of the chemical agents during the wars. North America accounted for the major market share for the nerve gas auto injector market in 2015 followed by Europe. Within North America, U.S. accounted for the major market share. Pacific and Middle East have relatively smaller market share but these regions are expected to grow at the significant pace. forecast of market size of segments with respect to various regions, which include major countries in North America, Europe, Asia-Pacific, and Rest of the World (RoW) over the forecast period. The degree of competition in the market has been identified by various parameters, including key market players.
