Abstracts

The aircraft seating market is very dynamic and new technologies have evolved over the years to reduce the overall weight of an aircraft seat. Lighter seats lead to less fuel consumption by an aircraft, ultimately leading to improved operating efficiency for an airline.

The U.S. dominates the North American market for aircraft seating and is expected to remain a major market in the near future. The market had garnered a market share of 80.1% in 2014.

An in-depth market share analysis, in terms of revenue, of the top companies has also been included in the report. The market numbers are arrived at based on key facts, annual financial information from SEC filings, annual reports, and interviews with industry experts and key opinion leaders such as CEOs, directors, and marketing executives. A detailed market share analysis of the major players in the North American aircraft seating market has been covered in this report.

The major companies that dominate this market include B/E Aerospace (U.S.), Zodiac Aerospace (France), HAECO Americas (U.S.), Recaro Aircraft Seating GmbH Co. & KG (Germany), Thompson Aero Seating (U.K.), Aviointeriors S.P.A (Italy), ZimFlugsitz GmbH (Germany), and Geven S.P.A (Italy).
