Abstracts

The nerve repair and regeneration market in North America is projected to grow at a strong rate—a CAGR of 11.4 %. The U.S. held the maximum market share, followed by Canada and Mexico. By product, the market is divided into nerve repair by biomaterials and nerve repair by neurostimulation (which holds the larger market share).

There are numerous opportunities in the market for players, including the rising number of surgeries and increasing healthcare expenditure. Key restraints for this market include a lack of availability of neurosurgeons and a lack of awareness.

The report shares a competitive view of the various companies operating in the market, in terms of the geographies they operate in, revenue generated, and their market shares. Key market players listed in this report are Integra LifeSciences Corporation, Stryker, and Medtronic, Inc., among others.
