Abstracts

Based on product type, the South America Industrial Centrifuge Market is projected to grow at a CAGR of 5.2% from 2016 to 2021

Increasing demand from process industries is one of the major drivers in the South American Industrial Centrifugation market. The demand for centrifuges is growing in various process industries primarily due to factors such as increasing population, growing urbanization in the countries like Argentina, Chili and many others along with implementation of stringent environmental norms, and government investments in project activities in municipal and industrial wastewater treatment. Based on product type, the segments are sedimentation and filtering centrifuge. The sedimentation centrifuge has been classified into Clarifier Centrifuges, Decanter Centrifuges, Disk stack Centrifuges, Hydrocyclones and Other Centrifuges. The major players in the Industrial Centrifuge market are Alfa Laval (Sweden), US Centrifuge Systems, LLC (U.S.), GEA Group (Germany), Andritz (Austria), GN Solids Control (China), Flottweg SE (Germany), Hiller separation & process (U.S.), FLSmidth USA Inc.(U.S.), Thomas Broadbent & Sons Ltd (U.S.) and Centrisys (China).
