Abstracts

The India Wall Decor Market size is estimated at USD 626.20 million in 2024, and is expected to reach USD 865.64 million by 2029, growing at a CAGR of 6.69% during the forecast period (2024-2029).

The rising government initiatives and investments in infrastructural developments in India supported the growth of the wall decor industry. The change in consumer preferences toward fully furnished homes increased the sales of wall decor products. Due to the increased income of consumers in India, people are more encouraged to spend on aesthetic wall decor items. The commercial spaces in India are also investing more in wall decor products that offer comfort and aesthetic value.

A significant transformation happened in wall decor products in India because of the integration of smart home technology. Consumers increasingly demand products with properties like changing colors, digital art, and voice assistance to add interactivity and functionality to their living spaces. Wall decor businesses in India are collaborating with niche artists and designers to introduce exclusive and limited-edition art collections. Enterprises focus on specific themes and creative partnerships to increase demand for unique and rare pieces.

E-commerce platforms played an essential role in expanding the business of wall decor products in India by colluding with artists and designers to add exclusive offerings. Businesses are maintaining a solid online presence, optimizing supply chains, and addressing sustainability concerns for shaping market growth.

India Wall Decor Market Trends

Growing Demand for Digital Printing is Accelerating the Demand for Wall Decor

Wall laminates and printed wall decor are India's most popular selling products, especially in residential sectors. Manufacturers in India adopted modern interior design, making it an essential tool to meet consumer satisfaction requirements. The emergence of digital printing technology fueled the rapid growth of the wall decor market in India. Some top-selling wall decor items in residential and commercial sectors are digital wallpaper printing, frameworks, and mirror works. Hence, digital printing witnessed the growth of the wall decor market in India.

The Rising Trend of Online Platform Drives the Market

The primary factor increasing the market growth in India is the rising influence of social media platforms. The rapid urbanization in India is increasing the number of people living in apartments and smaller homes, which drives the need for space-saving and multifunctional decor items, such as wall-mounted shelves and compact furniture designs. As the disposable income of middle-class people in India increases, the willingness to improve their living spaces also increases. Hence, the exposure to media and the internet also increases to explore various designs and ideas. Therefore, online shopping provides convenience, variety, and competitive pricing, contributing to the market's growth.
