Abstracts

Innovative Therapies for treating diseases are being sought after with fresh vigor as new targets, approaches and biology is discovered. Improved health care, nutrition and preventive medicine in the last few decades have all helped in increasing the life expectancy WW. However, this has not translated into any reduction in the incidence or prevalence of chronic or critical illnesses! On the contrary the incidence of chronic diseases like diabetes, obesity, arthritis etc. as well as cancer and the maladies associated with aging (dementia, Alzheimer's etc.) are on the rise!. Consequently the pharma industry continues to grow and is projected to achieve sales in excess of trillion dollar mark by 2020 By the next decade, one field which is poised to bring a paradigm change in the way diseases are treated is the Stem cell therapy/Regenerative Medicine space. The number of companies and products in the clinic have reached a critical mass warranting a close watch for those interested in keeping pace with the development of new medicines.

Contents

EXECUTIVE SUMMARY

Dawn of the Golden Era for Regenerative Medicine/Stem cell based therapies

INTRODUCTION

Stem cells Types

Mesenchymal stem cells (MSCs)

TOUGH CHOICE- 'AUTOLOGOUS VS. ALLOGENIC' THERAPIES

REGULATORY GUIDELINES

Japan and Asia Lead the Way

Japanese Adaptive Licensing Legislation

South Korea Regulatory Update

India Regulatory Update

Regulatory Scenario in US and EU

MARKETED CELL BASED/STEM CELL PRODUCTS

Approved Cell-based / Stem Cell Therapies in Korea and WW

Cost of Treatment of Approved Therapies

PROGRESS AND CHALLENGES

Reimbursement of Approved Cell based Therapies!

MERGER AND ACQUISITION- GAINING MOMENTUM IN REGENERATIVE SPACE

PROGRESS IN SPECIFIC THERAPY AREAS

Diabetes

Cardiovascular Disease

Musculoskeletal (MSD) Related Conditions

Ocular Disease

SELECT UPCOMING MILESTONES IN REGENERATIVE MEDICINE/STEM CELL FOCUSED COMPANIES (2015-16)

APPENDIX

I would like to order

Product name: Regenerative Medicine and Stem cell based Cell therapies-Drugs of the Future Offering Hope for Cure
