Abstracts

This **Asset Management Company Database** contains a list of asset management companies. The data consists of over **9,500** asset management companies globally with more than **100,000** key senior management and executive contact names for this industry sector. The database is available in Excel which enables easy filtering and sorting of data.

What can the data be used for?

To understand the size and activities of a potential asset management company supplier before engaging with that company

To target specific company executives or management

Compare suppliers and companies in the same sector

To conduct a mailing list to specific asset management executives within the company

As a guide for competitor intelligence on the industry

To understand the activities of companies in international countries

To source potential candidates for a new job opening

To maintain asset management market intelligence on the industry

To identify acquisition targets

To identify a potential business partner

The Asset Management Company Database contains the following contents:

The data, which is in Excel format, is available to download immediately after purchase. Please contact us for a small sample of the Excel data before purchasing (three randomly chosen companies).
