## Abstracts

This Automotive Parts Suppliers Company Database contains a list of automotive parts suppliers. The data consists of over **1,400** automotive parts suppliers with more than **6,000** key senior management and executive contact names for this industry sector. The database is available in Excel which enables easy filtering and sorting of data.

### What can the data be used for?

To understand the size and activities of a potential automotive parts supplier before engaging with that company

To target specific company executives or management

Compare suppliers and companies in the same sector

To conduct a mailing list to specific automotive parts supplier executives

As a guide for competitor intelligence on the industry

To understand the activities of companies in international countries

To source potential candidates for a new job opening

To maintain automotive parts supplier market intelligence on the industry

To identify acquisition targets

To identify a potential business partner
