Pages: 0

Price: US\$ 1,495.00 (Single User License)

ID: I99A0D1C0EAEN

## Abstracts

This **Internet Business Company Database** contains a list of internet companies and online services companies. The data consists of over **5,500** internet companies globally with more than **29,000** key senior management and executive contact names for this industry sector. All aspects of internet business activity are covered, including:

social platforms

online communities

search services

online advertising

download services

content solutions

ecommerce solutions

crowdsourcing

online shops

cloud based solutions

ISPs

broadband

website development

gaming and gambling

and many more.

Approximately 60% of the database are US based Internet companies. The database is available in Excel which enables easy filtering and sorting of data.

### **What can the data be used for?**

To understand the size and activities of a potential Internet business supplier before engaging with that company

To target specific company executives or management

Compare suppliers and companies in the same sector

To conduct a mailing list to specific internet or new media executives within the company

As a guide for competitor intelligence on the industry

To understand the activities of companies in international countries

To source potential candidates for a new job opening

To maintain internet business / online market intelligence on the industry

To identify acquisition targets

To identify a potential business partner

### **The Internet Business Company Database contains the following contents:**

Company Name

Address

Country

Website

Telephone

Revenue (\$M)
