

Computer Numerically Controlled Machine Tools Market in India 2013

<https://marketpublishers.com/r/C6DD0280735EN.html>

Date: February 2013

Pages: 67

Price: US\$ 950.00 (Single User License)

ID: C6DD0280735EN

Abstracts

The report is sent in 0-2 business days after order is placed.

The CNC Machine Tools Market in India is part of Netscribes' Manufacturing Series reports. The market will be boosted by the increase in adoption of CNC machine tools owing to its multiple advantages over conventional machine tools.

The report begins with an introduction section which provides a classification of the machine tools market. It also includes a brief description of the evolution of CNC machines in the Indian market. The market overview section provides a brief snapshot of the machine tools market in India. It is followed by an overview of the CNC machine tools market in India which focuses on the market size and growth. This section also highlights the production of CNC machine tools in terms of both value and volume.

The next section provides an overview of the various CNC machine tools application and CNC technology. This section highlights the advantages of CNC machines adoption and provides a brief description of the major components of CNC machine system. It also contains a brief overview of CNC programming and the role of computer based system. Various applications of CNC machine tools are also incorporated in this section.

It is followed by a section on CNC machine tools hubs which focuses on the major hubs of CNC machine tools spread across the Indian geography.

The report provides detailed information about the exports and imports of both CNC metal cutting and CNC metal forming machines in terms of value. This section also includes an import chain analysis of CNC machine tools.

Factors driving the growth of CNC machine tools market in India are also explained in detail. Healthy economic outlook stimulates the adoption of CNC machine tools. Growing demand for automobiles and auto components are one the major factors influencing the growth of the CNC machine tools market. Well established foundry industry in India provides a major opportunity for market growth. Growing capital goods industry and robust medical equipment market has also facilitated the market to grow further.

The players operating in the market also face challenges which are hampering their development and growth. Import dependency for critical CNC components act as major impediments for this market. High cost of CNC machines also presents a major challenge for market growth. Depreciation of currency coupled with lack of skilled labour poses major hindrances in the growth of the CNC machine tools market.

Initiatives required to promote the development of the CNC machine tools market has also been included in this report. Technology denial and its counter measures along with the fiscal measures needed for the development on the CNC machine tools market have been highlighted in this section.

The competition section begins with the Porter's Five Forces Analysis, illustrating the competitive rivalry, bargaining power of suppliers and buyers and threat of new entrants and substitutes. It outlays the competitive landscape of the CNC machine tools in India briefing about the domestic players existing in the market. The report also features brief profiles of major domestic and foreign players in the market and a snapshot of their corporation, financial performance along with the key financial ratios, business highlights and their product portfolio providing an insight into the existing competitive scenario.

The report concludes with a section on strategic recommendations which comprises an analysis of the growth strategies of the CNC machine tools market in India.

Contents

Slide 1: Executive Summary

INTRODUCTION

Slide 2: Classification - Computer Numerically Controlled Machine Market

Slide 3: Evolution of CNC Machines in Indian Market

MARKET OVERVIEW

Slide 2-3: Machine Tool Market India – Overview, Market Size & Growth (2007-08 – 2016-17e), Domestic Production (2007-08 – 2016-17e), Machine Tool Market – Turnover Share (2011-12), Machine Tool Market – Segments (FY 2012)

Slide 4: CNC Machine Tools – Demand Growth (2009-10 – 2015-16e)

Slide 5: CNC Machine Tools Production - CNC Machine Tools Production Volume (2009-10 – 2011-12), CNC Machine Tools Production Value (2009-10 – 2011-12)

CNC TECHNOLOGY AND APPLICATIONS

Slide 6-7: Computer Numerical Control (CNC) Machines – Overview

Slide 8: CNC System – Central Processing Unit

Slide 9: CNC System – Major Components Overview

Slide 10-11: CNC Programming

Slide 12: CNC Technology – Role of Computer Based System

Slide 13-17: CNC Machine Applications

CNC MACHINE TOOL HUBS

Slide 18: CNC Machine Tools – Production Hub

EXPORT – IMPORT

Slide 19: Metal Cutting CNC Machines – Exports (2010-11 – 2011-12), Imports (2010-11 – 2011-12)

Slide 20: Metal Forming CNC Machines – Exports (2010-11 – 2011-12), Imports (2009-10 – 2010-11)

Slide 21: CNC Machine Tools – Import Chain Analysis

DRIVERS & CHALLENGES

Slide 22: Summary

Slide 23- 27: Drivers

Slide 28-30: Challenges

REQUIRED INITIATIVES

Slide 31: Summary

Slide 32-35: Required Initiatives

COMPETITION

Slide 36: Market Competition – Porter’s Five Forces Analysis

Slide 37-50: Major Public Players

Slide 51-64: Major Private Players

STRATEGIC RECOMMENDATION

Slide 65: Strategic Recommendations

APPENDIX

Slide 66: Appendix

Slide 67: Sources of Information

I would like to order

Product name: Computer Numerically Controlled Machine Tools Market in India 2013

Product link: <https://marketpublishers.com/r/C6DD0280735EN.html>

Price: US\$ 950.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/C6DD0280735EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
