Netscribes' latest market research report titled Private Healthcare Market in Kannur 2013 identifies the healthcare scenario in Kannur. The healthcare landscape in Kannur is dotted with both private and public hospitals along with the presence of co-operative hospitals and medical institutions. The district has lived up to the name of curative service provider of Ayurveda, modern medicine and homeopathy system of medicines. Kannur is marked with the presence of both private hospitals and public hospitals. The healthcare facilities provided at these private hospitals easily measure up to International standards. The Government has acknowledged the importance of medical care being provided in the region and has encouraged the development of three forms of treatments namely primary, secondary and tertiary care.

The region has a lot of prospect to grow since advanced healthcare facilities are gradually being developed by multinationals. The State Government has also empanelled 32 private specialty hospitals under the Karunya Benevolent Fund Scheme. Kannur can be treated as a prospective area of development in the years to come owing to its potential of growth as well as vicinity to leading healthcare facilities in the state. Potent investments and support from the government can take this region to one of enormous growth and prosperity.
