## Abstracts

The report is sent in 0-2 business days after order is placed.

Netscribes' latest market research report titled Surgical Equipment Market in India 2015 highlights the overall potential of the surgical equipment market in India. The medical devices market is a rapidly developing segment of the Indian healthcare industry. Rise in the number of hospitals and increasing requirement of healthcare facilities on account of the changing demographics and increasing lifestyle diseases is creating a need for medical devices of all types ranging from simple instruments to the most sophisticated devices and equipments that work on complex mechanisms. The market for surgical equipment thrives not only on imports but the presence of a large number of domestic players contributes heavily to the segment, churning out the majority of revenue.

The report incorporates a detailed analysis of drivers and challengers, market revenue, volume, distribution and company share information. This apart, the report also covers latest news, financial deals and pipeline products information of each of the key sub-segments of the surgical equipment in India.
