Abstracts

The 2022 annual edition of the report analyses the overall strategy focus and provides Insights into & Comprehensive analysis of the Strategies & Plans being conceptualized & pursued by AM General LLC for the near to medium term horizon against the backdrop of a rapidly changing global order with global defense spending on a major upswing having almost touched the \$2 trillion level for 2020 owing to radical geopolitical changes. Continued Russian resurgence and rapid Chinese military ascension have effectively led to a return to great power competition spearheaded by innovative & next generation technologies. The growing Russian threat to Ukraine & the entire Eastern Europe and looming Chinese threat over the Asia-Pacific region have effectively spiked up defense spending across these regions and most other parts of the globe. The realignment of U.S. defense spending which is now pivoted towards competing with near peer adversaries and maintaining its traditional overmatch over adversaries has accelerated the pace of replacement & modernization of ageing defense equipment with the award of several new defense contract awards over the recent years and many more coming up along with focus on rapid development of game changer technologies. The U.S. defense budget has registered one of its biggest increases for the year 2022 and has reached the \$768 billion level providing significant growth opportunities to the industry going forward. For AM General, the latest iteration of its iconic HUMVEE platform, the HUMVEE NXT 360 light tactical vehicle providing MRAP level protection while featuring latest systems & technologies could provide significant export opportunities across international markets under a new leader at the helm. The NXT 360 made its European debut last year with AM General having showcased it at the DSEI 2021.
