Abstracts

The report analyses the overall strategy focus and provides insights into the near to medium term strategic blueprint and key Strategies & Plans being pursued by Embraer SA for the near to medium term horizon amid a complex, difficult & challenging global macroeconomic environment with the global business jet market likely to soften over near term while the larger Aerospace & Defense industry is in an expansionary phase owing to geopolitical tensions, thereby, providing growth opportunities to business aviation in the special mission aircraft segment. The global economy is projected to be heading towards a slow down in 2024 following monetary policy tightening by central banks globally over the recent years to check inflation amid sustained geopolitical instability with ongoing Israeli military operations in Gaza causing tensions and keeping the entire Middle East region on edge and the Russia-Ukraine war, which enters its third year in 2024.

Embraer has been working towards beefing up & further consolidating its market presence in the mid to super-mid-size business jets segment over the years with the launch of new business jets in the segment to effectively take on arch-rival Cessna. Embraer is also making rapid strides in the defense market with its C-390/KC-390 program gaining traction with a series of new orders and customers in Europe and its EVE program in the Urban Mobility market shaping up well. Further, Embraer has also been focusing on reinforcing its global MRO network for business jets while making rapid strides towards sustainability and foraying into adjacent, high growth segments.

Against this backdrop, the report provides a comprehensive analysis on the company starting with a detailed business and financial snapshot, incorporating charts, tables and comprehensive analysis based on latest financial statements. An insightful &

comprehensive SWOT framework analysis is also included; providing a comprehensive scan, assessment & analysis of the prevailing internal as well as external business environment of the company. The framework outlines the company's core, inherent strengths & weaknesses as part of the internal environment assessment and outlines potential growth opportunities as well as threats as part of the external environment assessment.

The report also incorporates analysis & review of key market, technology & industry trends along with issues & challenges which are likely to impact and shape the industry's future over near to medium term. The report also identifies key driving & restraining forces for the industry & assesses their potential degree of impact through a force field analysis. The report concludes by providing a comprehensive, medium-term market outlook & demand growth projections for the Global Business Jet market encompassing all key market segments and key geographic markets as well as regions over medium term.
