1. Introduction & Backdrop

This Strategy Brief report analyses & provides comprehensive insights into the Strategic Positioning, Priorities, Responsiveness and Key Strategies & Plans for the Top 6 OEMs in the Global Agriculture Equipment market based on a holistic assessment & comprehensive analysis of Strategic Initiatives, Business Developments and Strategic Moves & Measures being undertaken by them against the backdrop of an rapidly evolving market landscape & shifting global dynamics.

The agriculture equipment demand & sales have fared well for 2020 despite serious production & supply chain disruptions & challenges posed by the outbreak of COVID-19 pandemic with the net farm income in the U.S. reaching the second-highest level of all time of \$120 billion in 2020. The net farm income in the U.S. is projected to decline by 8% year-on-year for 2021 to reach \$111.4 billion. For 2021, the agriculture equipment sales are projected to grow by 5%+ across North America, Europe and South America while the sales in Asia are projected to contract marginally.

The long-term industry fundamentals, however, remain robust with the global agricultural output required to double itself by 2050 in order to match the rate of global population growth. The global agriculture equipment industry is in the midst of a technology-driven evolution phase led by connectivity, autonomous and alternate fuel based powertrain technologies aimed at efficiency and sustainability. The current phase of agriculture industry's development and its likely evolution over medium term quintessentially is going to be defined and shaped by technology which has been rapidly evolving and is poised to disrupt markets at a lightning pace.

Another growth catalyst for Agriculture Equipment makers over medium term is likely to be technology-driven and is likely to come in form of the transition towards Connected, Autonomous & Electric Technologies which are likely to witness rapid commercialization over medium term. These next-generation technologies are likely to stimulate as well as accelerate replacement demand for existing agriculture equipment across both traditional as well as emerging markets with their way superior & unmatched capabilities, operating efficiencies and total cost of ownership.
