Abstracts

The report provides a holistic SFAS framework analysis, developed by Wheelen & Hunger, on each of the Global Top 4 Commercial Aircraft Turbofan Engine manufacturers based on an analysis of each company's strategic positioning and its degree of responsiveness to its internal & external environment respectively. The objective of the analysis is to assess as to how favorably is each company positioned and how responsive it is to the nature, degree & pace of changes taking place within its internal and external environment respectively. The framework generates an insightful snapshot of the prevailing, holistic strategic equation for each company by identifying, weighing, prioritizing & ranking significant strategic factors present in the internal & external environment through an Internal Factor Analysis Summary (IFAS) matrix & External Factor Analysis Summary (EFAS) matrix respectively. These strategic factors are then ranked based on the strategic significance & potential degree of impact along with each respective company's corresponding degree of responsiveness to these factors. The final Strategic Factor Analysis Summary (SFAS) matrix amalgamates the IFAS & EFAS matrices into a single matrix followed by a reevaluation & second level ranking & responsiveness rating which leads to the generation of an overall score, thus, providing a holistic, overarching strategic view on each market player.

The numeric SFAS scores and the analysis produced by the framework, thus, are highly useful for competitive & comparative analysis from a current as well as emerging perspective with the framework assessing the strategic positioning & the degree of responsiveness of each company towards the present as well as emerging market dynamics, thereby, analyzing the ability to be able to create & capitalize on potential

growth opportunities effectively by harnessing & navigating the changing market & technology landscape effectively while leveraging structural & core strengths and negating threats & overcoming challenges simultaneously.

SFAS, as a framework, thus, scores significantly over the traditional SWOT analysis framework, in terms, of its ability to quantify a range of strategic factors based on the nature & potential degree of effect of each strategic factor being analyzed, thereby, making it much more effective for competitive assessment as well as analysis with the creation of a quantitative strategic snapshot on each market player.

Relevance & Usefulness of the Report:

The report provides insights & inputs to be incorporated into the broader competitive assessment, strategic planning & decision making processes.

The report will be useful for:

Competitive Assessment, Comparative Analysis & Strategic Planning

Overall Strategic Equation & Quantified, Numeric SFAS score for each Company based on analysis of Strategic Positioning, Market Dynamics & Responsiveness.

Holistic, Comparative Analysis on & Ranking of the industry OEMs based on SFAS Scores.

Analysis of degree of Congruence between Emerging Market Landscape & Strategy focus across OEMs

Identifying & highlighting areas for making potential Strategic Changes, Adjustments & Realignment

Analysis & Assessment of Emerging Market, Technology Trends & Developments

Analysis of Forces Driving as well as restraining the Industry & their overall Dynamics

Analysis of Market Evolution with Medium Term Demand Growth Projections &

Outlook

For Whom:

The report will be essential & a key resource for those associated with and having strategic interest in the Global Commercial Aircraft Turbofan Engines Market. The report will be especially useful for

Key Decision-Makers

Program & Procurement Managers

Top Management of Industry Players & Other Companies

Industry OEMs

Airline Groups and Aircraft Fleet Operators

Suppliers, Vendors, Technology & MRO Services Providers and other Key Players in the Industry Value Chain

Existing & potential Investors

Industry & Company Analysts

M&A Advisory Firms

Strategy & Management Consulting Firms

PE Firms, Venture Capitalists and Financing & Leasing Companies

Researchers and all those associated with the industry in general

Contents

SECTION - 1

Business Structure & Snapshot - For each of the Top 4 Commercial Aircraft Turbofan Engine Manufacturers

- a) Founded
- b) Headquartered
- c) Business Segments
- d) Employees
- e) Products, Services Portfolio and Key Competitors
- f) Market Capitalization
- g) Key Executives
- h) Shareholding/Ownership Pattern & Structure

SECTION - 2

Financial Performance Snapshot –

- 1. Revenue Base & Growth Trend
- 2. Revenues Split by Key Business Segments
- 3. Revenues Split by Key Geographic Markets & Regions
- 4. Gross Earnings & Margin Trend
- 5. Operating Earnings & Operating Margin Trend
- 6. Return on Sales Trend
- 7. Profitability Growth Trend
- 8. Cash Flow from Operations
- 9. R&D Expenditure Trend
- 10. CAPEX Trend

SECTION - 3

Internal Factor Analysis Summary (IFAS) Matrix - For each of the Top 4 Engine Manufacturers

Quantified Strategic Factors categorized under Strengths

Quantified Strategic Factors categorized under Weaknesses

SECTION - 4

External Factor Analysis Summary (EFAS) Matrix

Quantified Strategic Factors categorized under Opportunities

Quantified Strategic Factors categorized under Threats

SECTION - 5

Strategic Factor Analysis Summary (SFAS) Matrix - With reprioritization, quantification & ranking of respective strategic factors deriving from IFAS & EFAS matrices.

Quantified Sources of Strengths which could be Leveraged

Quantified Weaknesses to be Worked Upon

Opportunities to be Capitalized Upon & their Quantification to Assess Degree of Relevance & Usefulness

Threats to be Mitigated, Negated & Overcome & their Quantification to Assess Potential Degree of Impact

SECTION - 6

Comparative Ranking of Industry Players based on SFAS Scores

GE Aviation

Pratt & Whitney

Rolls Royce Holdings plc

Safran SA

SECTION - 7

Global Commercial Aviation Turbofan Engines Market - Force Field Analysis Analysis of Driving & Restraining Forces and their Overall Dynamics

Driving Forces

Restraining Forces

SECTION - 8

Key Market & Technology Trends Analysis of Key Trends poised to Shape & Transform the future

SECTION - 9

Key Issues, Challenges & Risk Factors

SECTION - 10

Strategic Market Outlook - Commercial Aircraft Turbofan Engines Market through 2041
Commercial Aircraft Turbofan Engines Strategic Market Outlook through 2041
Analysis of Emerging Market Scenario for Aviation Turbofan Engines
Demand Growth Projections for Aviation Turbofan Engines: 2022 - 2041
Engines Production Forecasts in Numbers
Value of Projected Engines Production over the forecast period
Engines Deliveries Split Forecast for Key Geographic Markets & Regions - 2022 - 2041
- Engine Units
Engine Deliveries Forecast for Key Geographic Markets & Regions - 2022 - 2041 -
Deliveries Value
