Abstracts

The global helicopter market is currently facing a double whammy with the military helicopter segment impacted significantly by continued defense budgetary pressures & cuts underway across most traditional markets while the recent slide in global crude oil prices has been impacting the demand for new civil helicopters and activity levels of existing fleets engaged in the offshore oil & gas exploration sector globally. The situation has impacted the industry OEMs significantly which had been focusing on & working towards strengthening the civil helicopter segment to partially offset the impact of budgetary cuts on the military segment. However, the medium to long term view of the market is promising with presence of strong fundamentals and long term, sustainable growth drivers & enablers spearheaded by technological evolution & R&D activity. The development of next-generation compound helicopters & tilt-rotorcrafts for military & civil applications has already heralded the advent of a new era that is likely to witness a significant expansion of the operational spectrum, capabilities & performance threshold of these machines which is likely to eventually transform & redefine their role besides enhancing overall effectiveness for a wide range of missions & operations.

Against this backdrop, the report provides a comprehensive & insightful Comparative SWOT Framework Analysis and Analyzes the Near to Medium Term Strategy Focus for the Global Top 6 Helicopter Manufacturers. The report analyzes the Strengths & Weaknesses of leading industry players from a standalone as well as relative perspective based on a detailed analysis of their Internal & External environment respectively focusing on key, strategic parameters, which include: analysis of overall cost base & structure, resources & key competencies, profitability & profit sources,

product portfolio analysis & its strategic positioning, key competitor analysis & degree of competitive intensity, competitive market positioning across key global markets, analysis of key strategies & plans, overall strategy focus & orientation, R&D capabilities & key programs being pursued. The framework after analyzing strategic positioning of industry players analyzes their overall strategic fit & the degree of strategic responsiveness to external environmental factors, which include:- Near to Medium term demand projections for military & civil market segments, prevailing market dynamics, emerging market & technology trends, issues, challenges & potential risk factors to be able to assess their ability to derive further business growth by capitalizing on potential growth opportunities effectively while negating threats simultaneously over near to medium term.
