Abstracts

This Decennial Strategy Review, published at the turn of the decade, reviews the strategy evolution & progression for Gulfstream Aerospace Corporation through one of the toughest & most turbulent decades for the business aviation industry, following the global financial crisis of 2008, which marked the beginning of the paradigm shift for the market, in terms of recalibration of usual, pre-crisis demand levels, shift in preference for aircraft types with the advent of the era of heavy jets, development & introduction of new aircrafts models by the OEMs to stimulate demand and technological evolution by the industry focused on performance, safety, comfort and optimized operating economics. This decennial review, thus, takes a macro view of the strategic developments and reviews the strategy pursuit & execution by the company over the 2010-2029 period and assesses its strategic significance as well as business impact & outcome for the company at the turn of the decade. The report, therefore, is going to be quintessential & a must have for those looking for a longitudinal view, perspective and analysis on the company from a strategy perspective.

Report Excerpt

Gulfstream has been able to further consolidate & enhance its market positioning as well as presence through this tumultuous period with the pursuit of an extremely smart & technology leadership based disruptive strategic orientation, summed up succinctly by the decision to develop the G650 in an uncertain global macroeconomic environment at the start of the decade, which has turned out to be a true game changer for Gulfstream and has propelled its ascension to leadership of the global business aircraft market, in

value terms, by the end of the second decade of the twenty first century. The same has positioned the company really strongly in an improving market environment with the industry, having managed the headwinds extremely well, marking very strong signs of demand resurgence, at the turn of the decade, with 2019 turning out to be one of the best years for the industry in a long time with robust growth in aircraft deliveries as well as billings registered by the industry.
