Abstracts

The report analyses the overall strategy focus and provides insights into the near to medium term strategic blueprint and key Strategies & Plans being pursued by Navistar Inc. for the near to medium term horizon amid a complex, difficult & challenging global macroeconomic environment with Trucking poised to soften over near term globally with order intake for new trucks contracting while the industry OEMs focus on & hustle to deliver ordered trucks to customers & fleet operators amid a difficult, complex & uncertain global macroeconomic environment. The global economy is projected to be heading towards a slow down in 2024 following continued monetary policy tightening by central banks globally over the recent years to check inflation creating a tight credit environment. It comes as a double whammy for the global economy amid sustained geopolitical instability with ongoing Israeli military operations in Gaza causing tensions and keeping the entire Middle East region & the world on the edge and the ongoing Russia-Ukraine war, which enters its third year in 2024. The trucking industry, however, continues to make active & steady progress towards energy transition geared towards sustainability along with integration of CASE technologies. The global economic growth, however, is projected to return to its range-bound average movement of under 3% annually. However, any further, major potential shock at this time could send the global economy spiralling down into a full-blown recessionary cycle.

Against this backdrop, the report provides a comprehensive analysis on the company starting with a detailed business and financial snapshot, incorporating charts, tables and comprehensive analysis based on latest financial statements. An insightful & comprehensive SWOT framework analysis is also included; providing a comprehensive scan, assessment & analysis of the prevailing internal as well as external business environment of the company. The framework outlines the company's core, inherent

strengths & weaknesses as part of the internal environment assessment and outlines potential growth opportunities as well as threats as part of the external environment assessment.

The report also incorporates analysis & review of key market, technology & industry trends along with issues & challenges which are likely to impact and shape the industry's future over near to medium term. The report also identifies key driving & restraining forces for the industry & assesses their potential degree of impact through a force field analysis. The report concludes by providing a comprehensive, medium-term market outlook & demand growth projections for the Global Trucking Market encompassing all key geographic markets as well as regions over medium term.
