STRATEGIC RATIONALE

The report brings to forefront & provides key insights as well as an incisive perspective through a comprehensive analysis of the Strategic Initiatives as well as Developments of these 6 leading Global Business Jet manufacturing companies (Gulfstream, Dassault, Bombardier, Cessna, Embraer, Hawker Beechcraft) against the backdrop of an evolving industry landscape; marked by difficult overall market conditions with global demand & jet deliveries across all 6 key OEMs improving but still staying below the pre-crisis levels while the fleet utilization levels make a strong comeback amid uncertain & difficult overall macroeconomic conditions prevailing across almost all key global markets as the U.S. economy continues on its recovery path; the Euro-zone debt crisis refuses to abate & the slump in Chinese economic growth with the focus on combating inflation. The buyers, on the other hand, continue to be cautious with their investment & purchase decisions while the inventory pile-up of used aircrafts continues to be a dampener with the market poised to ameliorate gradually with demand poised to steadily pick-up only from late 2012. The OEMs are in the meanwhile building capacity for a demand spurt anticipated during the later part of the current decade, developing new platforms & technologies, strengthening and extending global sales, service & support infrastructure with a strong focus on the Asia-Pacific region and looking optimistically at the opening of Chinese low altitude air space as the potential window of opportunity.
