# **Abstracts**

This Strategic report is a complete Strategy Dossier and provides comprehensive analysis & key insights into the strategic business aspects of these 6 leading Global Business Jet manufacturing companies (Gulfstream, Dassault, Bombardier, Cessna, Embraer, Hawker Beechcraft) based on a comprehensive assessment of their strategies & outlook against the backdrop of an evolving industry landscape; marked by difficult overall market conditions with global demand & jet deliveries across all 6 key OEMs improving but are still way below the pre-crisis levels while the fleet utilization levels make a strong comeback amid uncertain & difficult overall macroeconomic conditions prevailing across almost all key global markets as the U.S. economy continues to be sluggish, the Euro-zone debt crisis refusing to abate & the slump in Chinese economic growth with the focus on combating inflation. The buyers, on the other hand, defer their investment & purchase decisions to a more stable & viable regulatory environment while the inventory pile-up of used aircrafts continues to be a dampener with the market poised to ameliorate gradually with demand poised to steadily pick-up only from late 2012.
