

Electricity Intelligence - The Global High-Tech Power Market Ed 1, 2012-2016

<https://marketpublishers.com/r/E3879A7F89AEN.html>

Date: January 2013

Pages: 0

Price: US\$ 2,465.00 (Single User License)

ID: E3879A7F89AEN

Abstracts

This report and database provides a focused look at the advanced grid automation and power systems technology that will replace old infrastructure as smart grid systems become ubiquitous. Contents include detailed data and analysis of annual demand and capital expenditure for this sector (defined as utility automation and power systems technology) and the value of the entire Transmission and Distribution sector as a part of the smart grid market. Power system subtopics include turnkey substations, HVDC systems, and FACTS (Flexible Alternating Current Transmission Systems).
