Abstracts

Over US\$12 billion is set to be invested in 2015 alone for electricity metering. The new NRG Expert Utility Metering Deployments Report and Database provides you with an in-depth insight into what is happening in this fast-growing market.

Electricity Metering

This segment begins with an overview tab which lists the number of units sold and the represented US\$ value is presented for over 180 countries. For a further 49 countries, in separate tabs we have provided a more elaborate data set incorporating where known the market shares of the major electricity metering manufacturers. There is also a breakdown by type of meter deployed to provide an overview of the distribution of different metering technologies and their deployment. Charts include: unit sales and revenue 2011-2015 and a %-pie chart of the breakdown of 2011 meter sales by type.

Gas and Water

Further in the database, we have included the overall market value and unit demand for Gas and water metering products found in separate tabs.

NEW! New to this edition is the addition of tabs for Sub-Metering and Smart Grid. These both list the market values of their respective segments expressed in US Dollars.

How can NRG Expert Help?
