Global ultrasound market is expected to grow impressively during the forecasted period. The market is dominated by some of the major healthcare companies which includes GE healthcare, Siemens healthcare and Philips healthcare. Market growth is driven by various factors which includes increase in the number of cancer patients which is creating huge demand for ultrasound system market. Rise in the prevalence of CVD and other life style oriented diseases is also driving the ultrasound system market. Ultrasound is widely used to monitor the growth of baby during pregnancy, hence a constant rise in birth rates and awareness amongst the masses creates huge scope for ultrasound system market.
