## Abstracts

The global demand for Bitumen is forecast to report strong growth driven by consumption in major emerging markets. More growth opportunities will turn up between 2018 and 2025 as compared to the past five years, suggesting rapid pace of change. Companies quickly adapting to this changing landscape are emerging as top performers and earning attractive revenues through sustainable transition, innovation, efficient pricing and sales execution strategies.

Increases in both domestic and export-oriented revenues are observed for key players in the global Bitumen market. However, challenges such as increasing buyer bargaining power, emphasis on high-quality products at low costs are forcing significant changes in the Bitumen' supply chain.
