Abstracts

Lithuania oil and gas industry is witnessing active transformation during 2017 and 2018 driven by local and global industry dynamics. The country is planning to intensify its growth opportunities and attract new investments into domestic oil and gas sectors. Analyzing all the recent developments, emerging strategies and trends in the Lithuania oil and gas market, this comprehensive report from OGANalysis is an effective guide for strategy formulation for companies interested in Lithuania oil and gas markets.

This report includes detailed information and insights on the Lithuania oil and gas trends, operational and planned infrastructure, capital investments, and competitive structure and market developments to 2025.

Lithuania oil and gas market outlook report analyzes key trends in Lithuania oil and gas markets. The report also provides annual forecasts of production and consumption of oil, gas, motor gasoline, diesel, LPG, fuel oil, Primary energy consumption, GDP and population trends. In addition, asset wise capacity outlook of refining (CDU), coking, FCC, HCC, Storage, liquefaction, regasification are forecast to 2022.

Lithuania oil and gas report also includes information on all active and planned assets across Lithuania value chain. Further, capital investment and potential new business opportunities are identified. The report assesses the operational infrastructure (oil and gas terminals), current and future market conditions, investment climate and competitive landscape of upstream, midstream and downstream sectors in Lithuania.

Analytical tools including SWOT Analysis and benchmarking tools are incorporated for comparing industry prospects and challenges of investing or expanding in Lithuania.

Further, the research work details all the investment opportunities by sector, depicting the growth potential and project feasibility.

Updated information on planned fields, blocks, pipelines, refineries, storage and LNG terminals along with the Capex required, current status of the projects and likely start ups are included.

The report also analyzes three major oil and gas companies in Lithuania. Business Description, SWOT and financial analysis of these players is included. Further, all recent industry developments together with their impact on the Lithuania oil and gas players are provided in the research.
