Smart Card market overview –

Smart Card market illustrates an attractive growth rate during the forecast period with the advancements in technologies. Latest developments in Artificial Intelligence and machine learning abilities to expand Smart Card applications and drive demand during the forecast period to 2028.

The pandemic COVID 19 has a significant impact on the manufacturers of Smart Card due to disruptions in the supply chain and frequent lockdowns. Further, the economic slowdown and geopolitical matters have limited the Smart Card market growth in 2020. As the market recovers from the pandemic, we forecast the growth trajectory to vary across regions with some countries offering huge growth potential while others reporting limited profit margins.

New generation Smart Card with improved performance offering higher accuracy and flexibility, with easy integration into systems spur the growth in Smart Card industry. However, a paradigm shift towards a connected world and growing requirement for miniaturization are necessitating further advancement in the Smart Card market and develop smarter products.

Research and development in the Smart Card industry to drive down costs and improve functionality are expected to advance in the medium term. Autonomous vehicles poised to hit the mainstream alongside rapid growth in AI computing capabilities with improving commercials are offering enormous opportunities in the Smart Card market. Over the forecast period to 2028, we forecast the Smart Card market to regain growth

momentum, mainly with support from developing markets.

#### Smart Card market competitive landscape–

On the Smart Card market structure front, consolidation observed in 2020 was continued in 2021. Mergers and acquisitions are primarily intended to acquiring new technologies, strengthening portfolios, and leveraging capabilities.

Companies operating in the Smart Card market were hard hit by the adverse effects of COVID, with the major difficulty being the supply chain management. Managing production with shortages in supply and man force has limited the profitability of companies in 2020 and created the need to adapt to more agile methods of working. However, growing trends of online work and education along with the exponential development of the e-commerce industry facilitate companies to regain their market share. Detailed profiles of top companies in the Smart Card industry along with their key strategies to 2028 are provided in the report.

#### Impact of COVID 19 on Smart Card Industry –

The global Smart Card market study carefully examines the deviation in the global outlook due to COVID - 19 considering its impact on supply chain, economy, and consumer preferences by country and region.
