## **Abstracts**

Cannabigerol (CBG), a non-psychoactive cannabinoid found in the cannabis plant, is gaining increasing attention for its potential therapeutic benefits. It is considered the "mother cannabinoid" as other cannabinoids, like THC and CBD, are derived from CBG. Unlike its well-known counterparts, CBG is not known to cause psychoactive effects, making it a promising ingredient for various wellness and therapeutic applications. The CBG market is experiencing robust growth, driven by a surge in research exploring its potential benefits, the expansion of the legal cannabis market, and a growing consumer interest in natural wellness solutions.

The year 2024 has witnessed significant progress in the CBG market, with a considerable increase in research activity exploring its therapeutic potential, the development of new CBG-infused products, and the expansion of the supply chain to meet growing demand. This momentum is expected to continue into 2025, further bolstering the market's growth as more research confirms its potential benefits and consumer awareness increases.

The comprehensive Cannabigerol (CAS 25654 31 3) market research report delivers essential insights into current trends that are shaping the industry, along with prescriptive analyses to capitalize on the market's future growth opportunities. This report is an indispensable tool for decision-makers, offering a thorough understanding of the Cannabigerol (CAS 25654 31 3) market dynamics—from raw material sourcing to end-use applications. It also addresses competitive pressures from substitutes and alternative products and enables you to formulate winning strategies.
