Abstracts

BRICS Countries LPG Outlook report from OGANALYSIS provides detailed analysis and forecast of LPG consumption patterns and supply scenario in all key LPG markets in BRICS Countries. Forecasts of production and demand of each of the LPG markets in BRICS Countries are provided annually from 2005 to 2025.

Drivers and challenges of industry growth in each of the BRICS Countries countries are analyzed. Further, information on current refining capacity, refining complexity along with planned refining infrastructure details are also provided in the BRICS Countries LPG outlook report.

Historic data is taken largely from government ministries and companies involved, ensuring highest accuracy of the data. Further, forecasts are made through our sophisticated methodology considering current market conditions and future prospects. LPG Forecasts for each market are evaluated by in-house experts and also validated by industry professionals to ensure utmost accuracy and certainty.

The research work also provides information on leading refining companies in each country along with business profiles of three leading LPG suppliers in the region. All latest industry developments in BRICS Countries LPG are also provided in the report.

Scope

Annual forecasts of country wise LPG consumption and LPG production from

2005 to 2025

All key LPG markets across BRICS Countries are analyzed in detail

Refining, coking, FCC and Hydrocracking capacity outlook for each of the refining markets in BRICS Countries are provided from 2005 to 2020

Drivers and Challenges of operating and or investing in BRICS Countries LPG markets

Details of all planned refining projects in each of the LPG markets in BRICS Countries

Details of leading LPG suppliers in BRICS Countries markets are provided

Company profiles of three leading refining companies in BRICS Countries LPG markets

All largest LPG industry developments in BRICS Countries LPG

Reasons To Purchase

Design your strategies based on detailed annual LPG forecasts

Gain complete understanding of current status and outlook of each of the LPG markets

Identify the new projects driving the LPG demand/supply

Keep ahead of competition by understanding industry trends, news and developments

Gain insights into competition through detailed business profiles of market leaders
